**Special Request / Locations:**

Poses Check list – to be taken before wedding, during, and after Wedding. Note not all poses maybe required and/or taken due to time constraints placed upon the photographer by the couple or the church or hall. Also due to the fast paced (and sometimes unpredictable) nature of weddings not all shots are obtainable. This list is meant as a general guide to your wedding needs.

# Frequently Asked Questions

**Can I mix and match the prints that are included in my package?** You may select any combination that fits in your allowed print packages. An 8x10 = 2-5x7's or one sheet of wallets (same image per sheet). You can do 3-4x6 prints per 8x10 sheet also. This does not apply to the ala cart pricing of prints unless all the prints on a page are the same.

**What do I need to provide you?** You will get you a questionnaire to fill out requesting details about your wedding that I need. (location, dates, times, names, etc) Or we go over it all when we meet.

**What kind of deposits do you need?** 50% of your package price for weddings.

**Will you hold a date without a deposit?** Your date is reserved only when we have your deposit.

**Why do your packages contain two Photographers?** To ensure complete coverage of your event, and as an added backup to the main photographer. Most photographers have backup equipment (we hope) We have a BACKUP photographer photographing your wedding. We do not do weddings without a second photographer.

**Do you take pictures before the wedding?** Yes, normally some bridal party pictures, bride by herself, groom by himself keeping the two apart of course. This makes the session after the wedding shorter.

**How soon will my proofs be ready?** Within 2 weeks if not sooner, you will then place your order and within 2 weeks your pictures would be ready. Your Digital negatives are kept on file for future ordering needs.

**Your Prices are good, but can't uncle bob do just as good with his camera?** Maybe, however, remember we have a lot of experience, plus we have professional cameras, Lighting equipment for your formal pictures, and backup equipment in case something goes wrong. Plus we always shoot with two photographers. Another plus is Uncle Bob gets to enjoy your wedding more.

**Do you offer any discounts?** We offer a 5% discount if you pay the complete package price when you book. If either of you are a member of the armed services we also offer a discount of 10%. \* only one discount allowed.

**Your packages all include Photographs, can we get a discount if we don't want them?** All our packages include photographs, and we do not offer any packages without them. This is so that you get a selection of professionally printed prints. Even if you get a Hi-Res CD set, we want you to have a selection of what your prints CAN look like.

**Do you take credit cards?** Yes we accept most major cards.

**Do you have any payment plans?** Yes and no, Your deposit of 50% is due when you book, the balance is due before your wedding date. We will take payments anytime before your wedding date. We do not offer any payment plans that extend after your wedding date. All orders for additional prints must be paid for when placing the order.

**What is the online ordering for guests all about?** It is a free service that we offer you to proof your images online and allow your guest to see your pictures and optionally give them the chance to purchase them. It's secure, pictures are shipped directly to your guest. Do not order your package prints using this service as it will require you to pay for them a second time. Write the number of the image you want down and let us know what you want.

**Do you charge extra for Digital effects?** NO. Black and white, sepia toned, Retro look, vignettes, borders, hand tinting (accent of color). Just specify these when you order. We crop images for best fit, so your finished picture will look it's best. While we are happy to do collages for you they are not a digital effect and each image on a page counts as a separate print. Heavy digital editing is not included as an effect, and if requested we will advise you on the costs involved. Some effects are only offered on prints 5x7 or larger (Accent of color is one of them).

**Why is Wedding photography expensive?** There is a lot involved with a wedding. First off there is about 2 to 3 hours prep time for equipment, then the wedding it's self. After the wedding is shot there is about 4-8 hours minimum time involved preparing the pictures to be proofed (Cropping, sorting, editing, etc). Then there is the time involved getting your order together into a finished product.

**How are the photographs for albums/Proofs Selected?** Since there are a lot of images for your album we talk with you to get an idea of the feel you want for your album and we select the overall design of the album. You do get to preview the album before it goes to production, and are allowed to change up to 10% of the album at no additional charge. Proofs are selected by us, printed by our lab and you get them with the number of the image on the back. Due to the time involved we **do not allow** you to select the proofs, the images we select are the ones that over the years we have found that you are most likely to want.

**What kind of Equipment do you use?** We use Canon cameras, lenses and Flash equipment. We also use Light meters, Mono-Lights, umbrellas, different brackets for the cameras, remotes, etc.. Way too much to list

Once you book with us we will give you some useful tools for your wedding, These include a suggested photo list and a document about getting the most out of your

photography and wedding. We want your day to go as smooth as it can. We are always open to ideas you have.
